## 1.0 Purpose of this document

This document provides an overview about the business need and the solution that can be provided to fulfil the objective.

## 2.0 Business Case

The liaison between employer & freelancer is typically fulfilled by a staffing organization. Success of a staffing company is dependent on bridging the right employer need towards an employee skill. Matching of the skill vs requirement cannot be efficiently performed using papers of physical forms. Digitization of physical forms followed by matching of skills & requirements helps to run the business efficiently.

The solution developed will address the objective in a holistic manner and will have all the features and functionalities which shall let the freelancer to register on the portal and submit proposals online. Similarly, the portal also allows admin to register and post the project requirement. The admin of the system be able to check on the Proposal, accept / reject it and the freelancer allowed to check on the status.

## 3.0 Technologies Recommended

Front End	Java (HTML5, CSS3, JavaScript, Angular)
Middleware	Java (Spring, Spring MVC, Hibernate MVC, WEB API2)
Backend	Oracle/SQL Server
